Shubhadeep Mandal

81602 63797 shubhadeepmandal11@gmail.com shubhadeep-mandal Seronic2001

Education

International Institute of Information Technology, Hyderabad July 2025 – Present
Telangana, India
Master of Technology in Computer Science and Engineering *CGPA: 9.12*

Indian Institute of Information Technology, Ranchi Aug 2020 – Jun 2024
Ranchi, India
Bachelor of Technology (Hons.) in Computer Science and Engineering *CGPA: 9.05*

Projects

Warehouse Traffic Control: Distributed Robot Coordination | *JavaScript, Three.js, Web Workers*

- Built a simulator where 16 region managers coordinate 200 warehouse robots instead of one central server.
- Designed a lease-based protocol with **zero collisions** over 416K moves, even with lost messages, clock drift and crashes.
- Added deadlock detection and crash recovery, so a failed manager rebuilds its state in seconds.
- Compared with a central coordinator: **7.6x lower** peak load per node, and a crash affects 11 robots instead of 120.

Negotiate, Then Solve: LLM Agents for Timetabling | *Python, Gemini, Qwen, RAG, CP-SAT, FastAPI*

- Built an LLM assistant that turns scheduling requests into constraints for a solver and negotiates conflicts with people.
- Added safety checks (authority, cited rules, human approval); **no attack succeeded** in 50 prompt-injection tests.
- Built hybrid keyword and embedding search over policy documents, reaching **93%** recall.
- Fine-tuned a small 4B model with LoRA that runs on a laptop GPU and outperformed the Gemini model it learned from.

IndicLLM: Transformer Pretraining & Reasoning SFT | *PyTorch, SentencePiece, ONNX Runtime Web*

- Pretrained GPT-style language models for Hindi and Assamese from scratch in PyTorch, including the data and tokenizers.
- Fine-tuned them for multi-step reasoning, reaching **96%** test accuracy against a 48% baseline.
- Exported the models to run fully in the browser and deployed them as a live demo.

Peer-to-Peer Distributed File Sharing System | *C++, POSIX Sockets, Multithreading, OpenSSL, Linux*

- Built a BitTorrent-style file sharing system in C++ with a central tracker, multithreaded peers and per-piece integrity checks.
- Profiled and fixed bottlenecks in scheduling and networking, cutting a 1GB download from **193 s to under 13 s**.
- Added a replicated backup tracker with automatic failover, tested with unit tests under sanitizers.

Technical Skills

Languages: Python, C/C++, JavaScript, TypeScript, Rust, SQL, Bash.
AI & ML: PyTorch, LoRA, RAG, LLM APIs (Gemini), llama.cpp.
Web & Backend: FastAPI, React, Three.js, SQLite.
Systems & Tools: Linux, Multithreading, Sockets, Git, Docker, GitHub Actions, pytest.

Achievements

- **B.Tech Rank Holder:** Ranked 2nd by GPA in the B.Tech CSE batch at IIIT Ranchi.
- **PGEE 2025:** Secured All-India Rank 100 in the IIIT Hyderabad Post Graduate Entrance Examination.
- **Megathon 2025:** Placed 3rd in the mobile computing track.

Interests

- Reading web novels and manga.
- Playing chess and badminton.
